**Q. I am not getting emails from PowerSchool. How come?**

A. There could be multiple reasons for this:

- 1. Did you sign-up for email notifications on the email notification page? Please double check the email address you entered because if one character (letter/number/space) is off, you won't receive emails.
- 2. Does your email address have a spam blocker that could be blocking the messages? If so, you will want to add the email address [powerschool@k12.state.us](mailto:powerschool@k12.state.us) to the list of "allowed" email addresses so PowerSchool emails can get through.
- 3. Did you check your email's BULK or SPAM folder? Check to see if the messages are going there and choose to mark them as NOT SPAM. You will have to consult your email's help menu or manual to learn how to do this, as it is different for every program.

## Questions and Answers to help you understand and navigate through PowerSchool Parent Portal.

**Q. My husband/wife and I are separated/divorced, can we get another parent username and password for our child's account?**

A. No. Unfortunately, the PowerSchool program only allows one parent account to be created per child. Therefore, both parents will have to use the same username and password that was assigned by the district.

**Q. When I click on the teacher's name to email the teacher, my email program doesn't work correctly or does not open?**

A. Unfortunately, this is not a problem we can help you with since everyone's email programs are different. Your email program needs to be setup correctly on your computer. You may want to view the HELP area or menu for your email program or contact your Internet Service Provider for further assistance.

**Q. I can't login to the parent or student portal. I put in my username and password and click submit. After clicking submit, the page reloads to a blank username and password line and does not login. Help?**

A. PowerSchool uses "cookies" and this means your internet security is set too high, probably to the highest level of security, which blocks cookies. Depending on your browser, you will need to find the Internet Security area and turn it down a level or two so cookies are accepted. You can find out more information about this by going to your web browser's help menu and doing a search on "cookies" or "internet security."

**Q. Who Do I contact for PowerSchool access?**

A. Please contact the Director of PowerSchool, Maria Duvivier at [mduvivier@communityacademy.org](mailto:mduvivier@communityacademy.org) or at 215-533-6700 ext. 227, to get set up with a username and password to access PowerSchool Parent Portal.

**Q. What is the web address for PowerSchool?**

A. The Community Academy of Philadelphia parent portal address is: <https://cap.powerschool.com/public/pw.html>

**Q. Can I change my password?**

A. At this time, PowerSchool does not allow for the ability to change your password. Please make sure you record it and keep it somewhere safe and private.

**Q. Do students and parents see the same screen/comments?**

A. When students and parents access the PowerSchool server, they see the same information with one exception; parents have the ability to enter their email address and to request automatic progress reports via email.

**Q. Where are the directions for PowerSchool parent access?**

A. Parents are given a handbook once username and passwords are assigned with the directions for parent access. If the handbook is lost or misplaced you can download a copy that you can print, which is located on our school website.

**Q. I have multiple children in the district. Can I have access to all their accounts under just one username and password?**

A. PowerSchool does not allow for this (yet). Each child's account information is housed under a separate account so you will have a different parent login for each child. We apologize for this inconvenience but this is a limitation in the software.

**Q. Can other people see my child's grades and information?**

A. As long as you protect your password, others will not be able to see your child's information. Each child/parent is issued a unique identification log in and password.

**Q. I replied to the PowerSchool auto-email with a question, but have not received a response. Why?**

A. The PowerSchool auto-generated email is created and sent by the PowerSchool server, not by an individual. The server will not reply to your email sent to that address. If you have questions about your child's progress, please direct those questions directly to their teachers.
