

2009-2010 SES Provider Information

Provider	Provider Information	Location	Type of Instruction	Grades	Subject
Sylvan Learning Center	<p>Sylvan Learning Center is a licensed educational Center with over 18 years of documented success working with neighborhood families and schools. We use proven diagnostic tools to pinpoint educational needs. We create intensive, personalized programs from testing, parental and teacher input. Our instructors and directors are state certified with years of classroom and Sylvan experience. A positive learning experience building confidence and independence is provided. Teacher/student ratio is 1 to 3. Pre-tests and post-tests are given to measure growth and achievement. Each student's program is designed to address his or her individual needs in reading or math. Academic standards for the Philadelphia School District and the PA state standards are followed to help each student realize his or her potential within our academic programs.</p>	<p>601 Walnut Street Phila. PA 19106</p> <p>6537 Roosevelt Blvd. Phila. PA 19149</p>	Individual	K-12	Reading & Math
Sunrise Of Phila.	<p>Sunrise of Philadelphia provides technology based, comprehensive tutorial services in reading and math for students in grades K-12. The students will be assessed and diagnosed using the same instruments as the School District of Philadelphia. A customized curriculum that reinforces School District benchmarks and standards will be created for each student to support individual learning growth needs. Evidence based instructional models include Internet Websites specific to the needs of the student and First In Math online. Sunrise has years of practical experience in operating high quality after-school programs for elementary, secondary and special needs students. We support English language learners in Spanish and Asian Languages. We provide snacks and make learning fun.</p>	1900 S. 8th St. Phila. PA 19148	Small Group	K-12	Reading & Math

<p>Stay on Top Tutoring</p>	<p>Stay On Top develops individualized Reading and Mathematics programs for each student. Stay On Top's model of instruction for Reading and Mathematics is the Options Researched Program. The Options program offers a Reading and Mathematic assessment for grades K-8th, Special Needs, Language Deficient, etc. This test will determine a student's eligibility and benchmarks for tutoring. Our Reading Program focuses on the four major areas: phonics awareness, vocabulary, scanning fluency and comprehension. Our Mathematics skills focus and measures: concepts, mathematics, computation, problem solving, etc. Both have excellent pre and post-tests used for diagnosis, placement and evaluation for each student. We make sure our students are actively involved as much as possible. Stay On Top uses many different materials to tutor our students. We use a large amount of concrete items, listening materials, reading games, reading kits, math kits, test books, workbooks, grade level reading books, flash cards, calculators, computers, computer games and many other tools are used.</p>	<p>8306 Williams Ave. Phila. PA 19150</p>	<p>Small Group</p>	<p>K-8</p>	<p>Reading & Math</p>
<p>One On One Tutoring Services, Inc</p>	<p>One On One Tutoring Service Inc. provides the highest quality individualized instruction using research-based curricula in reading, writing, mathematics, and other academic areas. Our lessons are customized to meet each individual student's academic need. At One on One Tutoring Service, Inc., our two key fundamentals principles are: 1.) Individualized instruction provides students with benefits that cannot be duplicated in a classroom setting. 2.) Supplemental academic instruction improves overall student performance.</p>	<p>6122 Germantown Ave. Phila. PA 19144 I</p>	<p>Small Group Distance Learning</p>	<p>K-8</p>	<p>Reading & Math</p>

<p>OIC of America</p>	<p>OIC of America and the Career & Academic Development Institute (CADI) provide educational, mentoring, counseling and job placement services to dropouts and potential dropouts who have decided to return to school to achieve their high school diploma. Through several relationships with the Philadelphia Youth Network, Philadelphia Safe and Sound and the School District of Philadelphia, OIC of America and its programs provide a prescription for success by strategically aligning programs for different providers and transitioning students into its CADI school. This population consists of students who are 16 to 21 years of age who are under-accredited and over-age and whose entry testing scores average between the 5th and 7th grade levels of proficiency. The different programs are designed to 1, re-acquaint students with the rigors of an education environment, and 2, attempt to remedy those "drama issues that preclude them from having good attendance and performance and 3, transition them into CADI where they will earn credits based upon attendance, performance, "no drama" and commitment. As an accelerated school CADI can assist these students with a plethora of formats that will allow them to move expeditiously towards a high school diploma. CADI is a year round program that operates with normal hours and provides students with specialized programs on Saturday that allows them to earn additional credits toward graduation. CADI offers a holistic approach to education and life.</p>	<p>1225 Vine Street Phila. PA 19197</p>	<p>Small Group Distance Learning</p>	<p>K-12</p>	<p>Reading & Math</p>
<p>khepera Early Learning Center & Cultural Center</p>	<p>Our Agency will use the Options Research Based Reading and Mathematics Programs and 4Sight testing to assist students in moving to the proficient level on the PSSA test. Students are assessed and diagnosed using Options Intervention and 4sight Assessments. Individual needs will be addressed using 4Sight and Options assessment tools that identify math and reading concepts in key areas that are difficult for the student. Individual remediation material will be developed. Student progress will be graphically charted every four weeks. Achievement will be improved by providing services embedded in research and staff development based on state and local standards, reviewing benchmarks, using appropriate assessment tools, and encouraging parental involvement. Our tutoring service reinforces classroom</p>	<p>5210 N. Broad St. Phila. PA 19141</p>	<p>Small Group Distance Learning</p>	<p>K-12</p>	<p>Reading & Math</p>

<p>Intellectual Pursuit Inc.</p>	<p>Intellectual Pursuit, Inc. is an academic services agency providing private tutoring, test prep classes and college placement services for students preparing to go to college. The SES program services will offer eligible students in grades K- 12, one-on-one tutoring support and personalized instruction using computer web-based resources and paper-pencil generated lessons to target each student's areas of need and to improve their academic skills and performance in the classroom.</p>	<p>5421 Germantown Ave. Phila. PA 19144</p>	<p>Small Group</p>	<p>K-12</p>	<p>Reading & Math</p>
<p>Institute for the Economic Development of Children</p>	<p>The Institute provides continuity and developmentally appropriate learning activities for students as they move through the grade levels. Our curriculum is designed to fit the student's needs. IFEDOC teaches effective money management skills, math and reading too. The Institute will produce ongoing results that will effect the communities in which these children will live, when dynamic and effective education is made available to them. More specifically we educate children ages 5-17 in grade levels 1- 12. We do this using PA and National Standards. Our instructors are experienced and highly professional in their areas of expertise. We evaluate each child on an individual basis thereby giving them the opportunity to succeed.</p>	<p>42. W. Harvey St. Phila. <p>Greentree Education LCC</p>	<p>Our literacy programs are focused on improving our student's reading, writing, and speaking skills. We foster a love of learning by introducing students to interesting and engaging topics they will read and write about throughout the program. We implement researched-based programs that teach students in carefully paced steps. Our math programs focus on helping our students acquire mathematical reasoning abilities. We help our students learn how to structure and solve real problems they can relate to. Students will master and apply fundamental math skills including: computation, problem solving, measurement, graphing, equations, fractions, decimals, algebra and geometry.</p>	<p>6101 Catherine St.Phila. PA 19143 5701Washington Ave. Phila. PA 19143</p>	<p>Small Group</p>	<p>K-12</p>	<p>Reading & Math</p>

<p>Gate to Heaven Ministry</p>	<p>Gate Heaven Ministry initiative is to enable children falling short academically to reach their highest potential. Gate to Heaven can accomplish this goal by administering pre-test and post-tests required by the PSSA to reinforce reading and math standards. We intend on identifying each student's individual math and reading levels to ensure proper group placement, with respect to grade level. Students will receive one on one instructions to address each child's individual academic needs. Children will learn to read aloud and silently with confidence and with conceptual understanding. They will also learn and understand the importance of the metric system and how it is used everyday of our lives. Gate to Heaven's tutors will administer weekly quizzes to ensure that the children understand all lessons and materials covered in tutoring sessions. The program will also work closely with the students, parents and classroom teachers to retrieve feedback on students' academic progress. Lastly, all books and materials will meet all requirement of the Philadelphia School District. Gate to Heaven Ministry ultimately believes that this tutoring program will help the students build confidence, a well as self-esteem, but the program will also enable the children to reach their highest potential and have the brightest futures attainable.</p>	<p>3415-17 Haverford Ave. Phila. PA 19104</p>	<p>Small Group</p>	<p>K-12</p>	<p>Reading & Math</p>
<p>Catapult Learning LLC</p>	<p>Catapult Learning provides an intensive tutoring program that helps students earn better grades, build confidence, and increase self-esteem. Our highly qualified and dedicated teachers understand how to identify and address students' skill gaps to help them perform successfully at their grade level and beyond. In the more than 30 years that Catapult Learning has been providing instructional services, we have sought out and implemented practices that are supported by high quality research. Our lesson content is selected to fill skill gaps and/or bolster weak skills as assessed. Small group instruction allows students to share thinking strategies with their peers and allows the teacher to individualize as needed to maximize success for each student. Research also supports the effectiveness of highly structured, explicit, systematic instruction, which incorporates strategies for working with small groups, skill instruction, built in practice, and opportunity for re-teaching. Catapult Learning teachers are trained to incorporate these into each lesson plan as needed.</p>	<p>470 N. 2nd St. Phila. PA 19123</p>	<p>Small Group</p>	<p>K-12</p>	<p>Reading & Math</p>

Bible Ministries Fellowship	As we receive new students we will first discuss their needs with the classroom teacher and parents wherever possible. All students will be expected to take an initial assessment test to establish a benchmark score based on the Pennsylvania Language Arts and Math standards. We will use this initial test to determine where the student tests for proficiency. If the student scores below that proficiency level in either Language or Math he will be accepted for our program. We will determine the strengths and the specific weaknesses of each child so that we can address these areas. All work will be guided by the teaching staff. We will test the students monthly to determine if they have reached proficiency in their weak areas. Those who score above proficiency will be notified and given honorary certificates and the school teacher and the parents will be informed of their performance. Students are encouraged to improve their academic performance through intensive tutoring to improve their tailored educational goals and objectives. All our monthly reports will be given in writing to the School teacher and parents.	3415-17 Haverford Ave. Phila. PA 19104	Small Group	K-12	Reading & Math
Avante Tutoring	Parents praise the quality of the tutors and the flexibility of the tutoring program. We are open 7 days/week to accommodate the busy lifestyles of families. We offer wholesome snacks and a positive environment conducive to learning. Our students and staff come from many different racial, religious and ethnic backgrounds. We have interpreters available for almost every language. Students will not only improve their standardized test scores and grades, but will gain confidence and learn the study skills necessary for self-reliance. Most of the classes are ONE-on-ONE, not large groups. We have tutors with expertise in working with learning disabled students.	8012-A Castor Ave. Phila. PA 19152	Small Group Distance Learning	K-12	Reading & Math
Beloved CDC	The goals of the Beloved CDC are to create an academically focused and safe environment for all of our students. Our main objective is to improve test scores for our underachieved students. We will also provide conflict resolution, social skills and peer mediation for our at risk children. Students will be assessed three times during the SES services. There will be a pre-assessment to establish the individual needs of each student in reading and math. There will be a mid-level and final assessment to evaluate effectiveness of instruction and materials used in the program. The education process will involve the students' parents and teachers. We will keep an open line of communication with the schools so that we can provide individualized attention to the student.	4541 N. Broad St. Phila. PA 19140	Small Group	K-5	Reading & Math

Provider list is subject to change as the Pennsylvania Department of Ed. Master list has not been updated for the 2009-2010 school year.
